

SPANISH 21

The rules for Spanish 21 at this casino, set out below, are our Commitment to the players in ensuring that the gambling we offer is 'Fair and Open'. In the event of a dispute resulting from any ambiguity in the rules, the decision shall always be in the player's favour until that ambiguity has been resolved.

- The player plays against the Dealer/House.
- A player must place their bets prior to any cards being dealt. No bets can be changed or altered after any cards have been drawn.
- Only players with a Spanish 21 wager may play the side wager available at the table.
- The wager(s) is valid for one hand only.
- Spanish 21 is played with 6 or 8 decks of 48 cards throughout this casino. Each individual deck has had the four 10's cards removed.
- The cards are dealt face up, one to each player and then one to the Dealer followed by a second card to each player.
- Aces count as 1 or 11, Court cards count as 10 and all other cards have their face value.
- When a player's total goes over 21 (busts) their Spanish 21 wager will be lost and surrendered to the House.
- A Blackjack (an ace with a picture or any 10 value card) is with the player's first two cards only. This beats any other combination including a Dealer's Blackjack and is paid at odds of 3 to 2.
- The players are then asked in turn if they require additional cards in order to achieve a total closer to 21 than the Dealer. Each player may take as many cards as they wish up to a total of 21.
- Players are not allowed to draw or double on any hand that is 21.
- The Dealer must draw on 16 or under and must stand on 17 or over.
- The Dealer's first ace counts as 11 unless it busts the hand. Subsequent aces count as one.
- If the player's total is closer to 21 than the Dealer's, the player wins even money (1 - 1).
- If the player's total is lower than the Dealer's total then their Spanish 21 wager(s) will be lost and surrendered to the House.

- When the player has the same total as the Dealer it is a stand off, unless the player has a total of 21. In this instance the player's total of 21 always beats the Dealer's total of 21 unless the Dealer's hand is a Blackjack.
 - A player may double their original stake (providing they take one further card only) on any number of cards total (with the exception of a Blackjack).
 - If a player's first two cards have the same value, they may split them. The original bet will be placed on one hand and an equal amount on the other receiving one extra card face up to each hand. If the cards dealt to a split hand result in a further pair of cards of equal value, the resulting pair may be split again and may continue to be split if the resulting hand, or hands, contain cards of the same value.
 - If a player doubles on a score of 10 or under made with an Ace (e.g. Ace + 7) and the player receives another card e.g. a 3, giving an Ace + 7 + 3 this is 21 and not 11.
 - If after splitting either aces or tens a player has a 10 value card on either or both of the aces or an ace on either or both of the tens these count as 21 not Blackjack and are paid if won at even money.
 - A player may double after splitting.
 - Insurance is offered only when the Dealer's first card is an ace. The insurance stake must not exceed half the original stake and is paid at 2-1 if the Dealer obtains a Blackjack.
 - Insurance, if required, must be requested before a third card is dealt to any player, or the dealer receives their next card.
 - All wagers must be in the specified minimums and maximums displayed at the table are per box.
- In addition, if players' have specific hands they will be paid at enhanced odds or they are entitled to a 'Bonus' payout.

The following hands are to be paid at the following odds:

- A five-card 21 pays 3 to 2
A six-card pays 2 to 1
A seven- card or more 21 pays 3 to 1
- A 6-7-8 or 7-7-7 of mixed suits pays 3 to 2
A 6-7-8 or 7-7-7 of the same suit pays 2 to 1
A 6-7-8 or 7-7-7 of spades pays 3 to 1

These are only paid if the player has not split or doubled their hand. If the Dealer has a BJ then all of the above hands are lost and surrendered to the House.

- If a player has a suited 7-7-7 which has not been split or doubled, and the dealer's initial card is a 7, a 'Super Bonus' is paid to this player. It pays £1,000 if the players wager is less than £25 and £5000 if their wager is £25 or more. In addition all other wagering players are paid an 'Envy Bonus' of £50.

MATCH THE DEALER

- This wager is that one or both of the player's initial two cards will form a Match (pair) with the Dealer's first card.
- If the player has a 'Match the Dealer' wager and their hand does not form a Match (pair) with the Dealer's first card, then the wager will be lost and surrendered to the House.
- If one of both of the player's initial cards forms a Match (pair) with the Dealer's first card, they will be paid out as detailed below:

	6 decks	8 decks
Non Suited Match (pair)	4 - 1	3 - 1
Double Non Suited Match (pair)	8 - 1	6 - 1
Suited Match (pair)	9 - 1	12 - 1
Suited Match + Non Suited Match (pairs)	13 - 1	15 - 1
Double Suited Match (pairs)	18 - 1	24 - 1
